

Payroll that scales.

Effortless. Secure. South African compliant.

Payroll without the pain

Managing payroll shouldn't require consultants, weeks of setup, or specialist knowledge. Blenny Payroll is a powerful online platform built for South African businesses that need absolute accuracy, full compliance, and zero friction — whether you run payroll for one employee or ten thousand.

- No setup fees.
- No consulting costs.
- No payroll experience required.

- **✗** Complex setups
- **✗** Manual spreadsheets
- **✗** Costly consultants
- **✓** One intuitive system

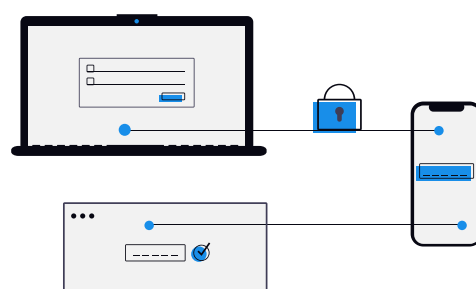

Enterprise-grade security.

Built for compliance.

Unrivalled Security

Hosted in Microsoft Azure Data Centres, Blenny delivers banking-level protection compliant with SARS and POPIA, using enterprise-grade encryption and strict access controls.

Peace of mind — from 1 to 10,000 payslips.

Up and running in under an hour

Lightning-Fast Onboarding

Master the system quickly — even with zero payroll experience.

Built-In Guidance

Every page includes info icons, tips, and FAQs. No manuals. No guesswork.

Intelligent Data Validation

Automatic warnings prevent compliance and data errors before payroll runs.

Built to scale. Designed for control.

Multi-Employer Mastery

Run unlimited employers of any size in one system — ideal for bureaus and groups.

Granular Permissions

Invite users with precise access to employers, modules, or features.

Comprehensive Dashboard

One command center showing employers, employees, updates, and system activity.

Payroll done smarter

Seamless Migration

Upload your latest IRP5 — we auto-populate ~90% of employee data.

Rapid Employee Integration

Add or import employees in minutes via Excel or IRP5 data.

Smart Salary Structures

Reusable schedules for earnings, allowances, overtime — optional, flexible, fast.

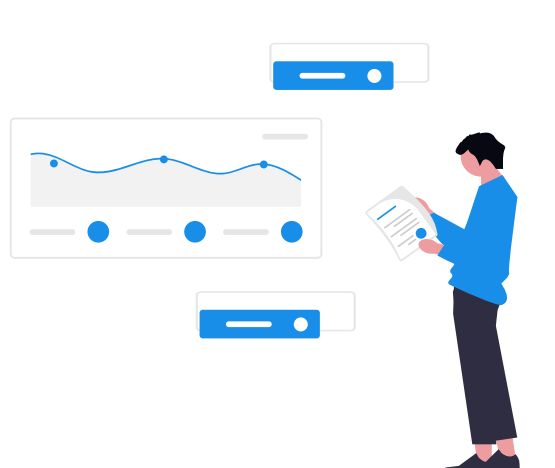

Progress Tracking (“Cross Out” Tool)

Visually mark completed changes so nothing gets missed.

Bulk Operations

Mass uploads and edits that shine at high volume.

Beyond payroll

Secure Bulk Payments

Nedbank-sponsored TPPP integration — automated payments, error handling, refunds, and invoicing.

Advanced Reporting

Filter by frequency, department, cost center, or individual. Export to Excel, PDF, CSV. Includes UIF9/ UIF and regulatory reports.

Integrated Personnel Files

Store documents with expiry tracking. First 10GB free.

Employee Self-Service (Zero-Rated)

Payslips, contracts, leave, policies, messaging — no data costs, no admin burden.

Paperless Leave System

Custom rules, accruals, approvals, photo uploads — fully digital.

Value-Added Services

Earned wage access, devices, airtime — boost retention at zero admin cost.
